# A REASON TO CELEBRATE!

So well deserved! We congratulate our head chef Marcel Tauschek and his entire kitchen team and, of course, host Karim Zarif and the service crew on receiving another award.

A star for our Mountain Hub Gourmet for the third time in a row - what an achievement! Our location is certainly not the typical one for a starred restaurant. We are all the more delighted that the idea of offering creative, modern and, above all, regional and sustainable top cuisine for Munich, the region and guests from all over the world at an airport works.

Thanks to the Winnow application, our kitchen always keeps track of what goes to waste. The kitchen team uses a touchscreen tablet to keep track of exactly what food is being thrown away. An electronic scale automatically records the weight and shows the user the cost of the food thrown away. This helps to minimise waste by avoiding overstocking and optimising the use of leftovers.

**THERE  
IS PLANET  
NO ≈B≈**

In co-operation  
with Winnow, we  
have integrated  
innovative  
technology into  
our kitchen to  
reduce the amount  
of food waste.

"Hilton was founded on the noble premise that travel can make the world a better place and that premise still guides us today."

Christopher J. Nassetta, President & Chief Executive Officer, Hilton
